

NuCalm®...the all-natural way to experience a relaxing dental visit

We know our patients are looking for greater comfort and faster dental appointments, which is why we are proud to introduce NuCalm®, a revolutionary all-natural technology. Our patients love the comfort of the NuCalm dental experience.

To date over 300,000 dental patients across the United States have experienced a relaxing dental appointment with NuCalm. 98% of patients who have experienced NuCalm state they would recommend it to their friends and family.

Deep relaxation is achieved through four simple steps. NuCalm is administered by our team at the beginning of your appointment and most patients experience deep relaxation within 3 to 5 minutes. While listening to soothing music, you will relax comfortably in the chair for the entire appointment. Once your dental appointment is completed, you can leave our office immediately with no side effects, no impairments, and no recovery time.

What Patients Are Saying

"Absolutely awesome! I'm sold and can't imagine another appointment without it!"
– Meribeth

"I actually feel better about being here! Usually I can't stand to be in the chair...now I can do it!"
– Julie

"I felt very calm and relaxed. I did not realize a dental appointment could be this easy! I lost track of time!" – Chris

"I can't believe that was 90 minutes - only felt like it was 30 minutes tops!" – Craig

News is spreading quickly about NuCalm®. It has been featured on ABC News, CBS News, NBC News, Fox News, and WGN Chicago.

How does NuCalm work?

Step 1: Chew dietary supplements containing all-natural ingredients that interrupt stress. The dietary supplements will not counteract or interfere with any medications or dietary restrictions.

Step 2: Patches are applied behind each ear for microcurrent stimulation. Research shows this helps to facilitate relaxation.

Step 3: Wear headphones and listen to soothing music. Layered in the music is proprietary neuroacoustic software designed to facilitate deep relaxation.

Step 4: Wear NuCalm light-blocking eye mask to remove visual stimuli and maintain relaxation.

Why we love NuCalm

We are always looking for ways to improve your dental visit. NuCalm provides a uniquely positive experience, reduces your stress, and lets you leave feeling refreshed. NuCalm also allows us to focus exclusively on doing our best dentistry. Our patients and the team love NuCalm and we are proud to provide this exceptional technology to you.

Ask our elite dental team today how you can experience NuCalm during your next visit.

With NuCalm, everybody wins!
